

MGS F3EA JOINT VENTURE JOINT CAPABILITIES BRIEFING

ORGANIZATIONAL OVERVIEW

MGS F3EA JV is a certified 8(a), Economically Disadvantaged Woman-Owned Small Business (EDWOSB), and Woman-Owned Small Business (WOSB). We participate in the SBA Mentor-Protégé Program (MPP) through a strategic Joint Venture (JV) between F3EA, Inc. and Modern Government Solutions LLC (MGS). This partnership combines the technical, managerial, and Government Contracting expertise of both organizations while maintaining the benefits and classification of a small business under SBA size standards.

Headquartered in Savannah, GA, with operational sites across the U.S., Japan, and Hawaii, MGS F3EA JV delivers comprehensive and agile solutions to meet the unique needs of U.S. Government clients.

OUR COMPETITIVE ADVANTAGE

Our leadership team is comprised of individuals with decades of experience in delivering high-quality training and management services to U.S. Government customers within the Special Operations and Intelligence communities.

MGS F3EA JV offers the synergy of a larger organization combined with the agility and responsiveness of a small business. This allows us to:

- ✓ Leverage the advantages of the SBA small business programs, including 8(a), EDWOSB, WOSB, and SDB certifications.
- ✓ Expedite and streamline the government acquisition process, benefiting our teaming partners and customer agencies alike.

PAST PERFORMANCE & EXPERTISE

Our team, consisting of former SOF unit members and seasoned business executives, fosters a culture of operational excellence. This enables us to deliver doctorate-level support and unparalleled service quality.

Our extensive portfolio demonstrates successful program delivery in the following areas:

- ✓ Personnel support and mission-tailored exercises.
- ✓ Security and training services tailored to elite military and government teams, specifically within the Special Operations Forces (SOF) community and the Department of Defense.

KEY CLIENTS

- ✓ U.S. Special Operations Command (USSOCOM)
- ✓ Air Force Air Combat Command (ACC)
- ✓ Navy, including Joint Special Operations Command (JSOC) & Naval Special Warfare Command (NSWC)

OUR CUSTOMERS

FEDERAL DESIGNATIONS

OUR SERVICES

Our team delivers advanced training and support solutions to elite military and government agencies, enhancing operational effectiveness. Our areas of expertise include enterprise training, live and virtual training environments, defense systems development, and global logistics solutions.

ELITE TRAINING

Comprehensive Scenario-Based Training

We deliver specialized training and exercise planning for Special Operations Forces (SOF), conventional military units, interagency partners, and international allies. Leveraging our expertise in military operations, intelligence, security, and aviation, we design, plan, and execute realistic and effective training exercises using state-of-the-art equipment.

- ✓ Full-suite design, build, and execution of training exercises
- ✓ Emergency Deployment Readiness Exercises (EDREs)
- ✓ Joint Full Mission Profiles
- ✓ Crisis Response Force (CRF) Exercises
- ✓ Pre-Deployment Evaluations (Sensitive Activities, Unconventional Warfare, etc.)
- ✓ Advanced Tactical Free Fall
- ✓ Advanced Contingency Training (Medical, Personnel Recovery, Extraction)
- ✓ Training in Cyberspace, SIGINT, Electronic Warfare (SI/EW), and Information Operations.

HUMAN CAPITAL MANAGEMENT (HCM)

End-to-End Personnel Solutions

We provide comprehensive personnel solutions tailored for the Defense and SOF communities. Utilizing our extensive network and contract & program management expertise, our NextGen IT and HCM solutions, including the MGS proprietary AQHR® methodology (Attract. Qualify. Hire. Retain.®), empower organizations with data-driven decision-making for effective growth, training, and retention.

- ✓ Full lifecycle staffing, recruitment & resource management, leveraging the AQHR® model
- ✓ Curriculum development and personnel management for military training centers and certification units
- ✓ Application of cross-functional and multinational best practices for program implementation

Beyond training, MGS F3EA JV provides a full suite of mission support services, including aviation solutions, commercial cybersecurity services, and specialized intelligence, electronic warfare, and cyber operations (SI/EW/Cyber). Our defense systems development and logistical support capabilities are designed to offer tailored solutions that address both current and emerging operational needs.

The JV's ability to rapidly prototype, develop, and integrate advanced defense systems, combined with our global logistics expertise, positions us as a trusted partner for critical government and military missions worldwide.

INTELLIGENCE SERVICES & MISSION SUPPORT

Comprehensive Mission Support

We provide a broad spectrum of mission support services, including aviation solutions, cybersecurity, specialized intelligence, electronic warfare, and cyber operations. Our tailored solutions for defense systems development and logistical support ensure operational readiness.

- ✓ Rapid prototyping, development, and integration of advanced defense systems
- ✓ Research & Development (R&D)
- ✓ Testing and Evaluation (T&E)
- ✓ Full Mission Profile Exercises
- ✓ Mission Planning and Development tailored for SIGINT/EW, including specialized OPFOR and role player management
- ✓ Training in Cyberspace, SIGINT, Electronic Warfare (SI/EW), and Information Operations

PROGRAM DEVELOPMENT

Seamless Collaboration and Comprehensive Management

We utilize Integrated Product Teams (IPTs) to facilitate seamless collaboration across acquisition, technical, financial, and operational domains. Our program managers focus on measurable costs, schedules, and performance outcomes. Our experienced curriculum developers use systematic training development methods, combining experiential and knowledge-based training for soldiers and leaders.

- ✓ Comprehensive program management from IDIQ level to execution
- ✓ Adherence to standards such as PMP, Lean Six Sigma, ISO 9001, and CMMI Level 5
- ✓ Tactical equipment, weapons, vehicles, and aircraft
- ✓ Specialized equipment: uniforms (by country and unit type), ISR systems, medical gear, tactical vehicles, watercraft, and UAVs
- ✓ Realistic props, pyrotechnics, videography/photography equipment, and more

TRAINING VENUES, ON-SITE TRAINING CAPABILITIES & LOGISTICS SUPPORT

Diverse Training Environments

We offer scalable training venues and comprehensive logistical support tailored to client needs, including jungle, mountain, Arctic, desert, subsurface, and urban mega-city operations (DoDi 1322.28).

Comprehensive Logistical Support

- ✓ Transportation: CDLs
- ✓ Storage: Federal Firearms, Explosive, DEA Licenses
- ✓ Global on-site training facilitation

In-House Management

We manage tactical gear, weapons, vehicles, and aircraft using our owned assets to support military training both CONUS and OCONUS.
